THE TEST THAT TELLS

It's Norway testimony—it may be inves-

pain through the small of my back, to-
gether with a tired feeling. I couldn't
rest well either, when a friend advised me
to take Doan's Kidney Pills. I got a sup-
ply at F. E. Stone's Drug Store. After
I used two boxes, the pains and other
symptoms disappeared and there was a
great improvement in every way. I have
had no kidney trouble since."Four years later Mr. Bradford added:
"I still have confidence in Doan's Kidney
Pills as it hasn't been necessary for me
to use a kidney medicine since I took
them."Kidney Pills—the same that Mr. Bradford

Cut the Cost of Fuel

The New Perfection Oil Cook Stove is a real money-saver. It uses fuel only when you want a fire for cooking. The moment the match is applied, you can have intense heat for fast cooking and boiling, or a low flame for simmering.

Not a drop of oil is wasted, for the long blue chimney provides the necessary draft for perfect and complete combustion, and at the same time drives all the heat directly against the cooking utensil.

3,000,000 users of New Perfection Oil Cook Stoves are independent of coal, wood and ashes. They come in 1, 2, 3 and 4-burner sizes.

For your further convenience—the New Perfection Water Heater furnishes hot running water at a very moderate cost. Ask your dealer.

BATES—WEST PARIS

West Paris 11: Buckfield 4.
West Paris opened its baseball season Friday afternoon at Buckfield by winning a one-sided game from the home team, 11-4. The Buckfield outfit, having previously won from Canton, 11-0, was expected to present stronger opposition than proved to be the case. Gerrish was hammered to all corners of the field, and the support of the usually reliable infield wobbled at critical times. George Murphy made his first appearance on the mound for West Paris and was effective throughout except for the sixth when Russell connected with one of his fast ones for a homer.

West Paris started scoring in the first inning. After Billings had fanned, Roberts threw Packard's roller over first, the latter continuing on to second. Gerrish struck out Hill, but Murphy drove the first ball pitched to center field and Packard scored. McAllister was third out on a fly to Fuller. A base on balls and hits by Packard and Hill were responsible for a run in the third and Doughty sent Perham over the plate in the fourth. The sixth saw three more added to the total and the following frame put the game on ice. Murphy was hit by a pitched ball. McAllister singled. Sawyer lifted a long fly to left field. Chammon nudged Perham's drive and Murphy scored. Doughty hit safely to tally McAllister. Fuller kicked Billings' grounder around long enough to fill the bases. Gerrish got Packard in the hole for two strikes and then tried to sneak one over. The West Paris shortstop drove it far over the right fielder's head for three bases. Gerrish tossed out Hill to end the scoring.

The batting of Packard and the pitching of Murphy featured for the Paris team, while for Buckfield, Russell and Roberts hit well. Though this was the first game for West Paris, there is good reason to believe that it will be representative this summer by a team as strong, if not stronger, than usual despite the loss of several fast players of other years. HARRISON

Buck-Rice

Percy Clarence Buck of Port Huron, Michigan, son of Mr. and Mrs. Adelbert G. Buck of Harrison, and Elizabeth Wilson Rice, daughter of Mrs. J. Wilson Rice of Worcester, Mass., were married in the home of the bride, Saturday, June 12, at four o'clock. Against a bank of palms and ferns, Rev. Benjamin Wyland performed the double wedding ceremony.

The bride wore a gown of white satin and dotted tulle and her fan-shaped veil was caught with orange blossoms, while she carried a shower bouquet of bride's roses and orchids. The ribbon girls, who wore orchid organza frocks, carried the rope of laurel, forming an aisle through which the bridal party walked. The two small nieces of the bride were flower girls and another small niece carried the rings on a silver tray.

An informal reception followed the ceremony. Mr. and Mrs. Buck will take a trip to Maine, up the Lawrence River and on the Great Lakes before returning to Port Huron where they will live.

The bride is a graduate of Classical High School and of the Jargeud School in Cambridge and has taught in the Niagara Falls High School and the high school of commerce in Worcester. The bridegroom is a graduate of Bridgton Academy, '09, and of Bowdoin College, 1913, and received the commission of 1st Lieutenant at Fort Niagara. He is now assistant superintendent of the Ach-son Oldtag Company of Port Huron, Michigan.

For Office of Superior Judge

The Bar Association of San Mateo County, California, recently paid a neat tribute to Judge George H. Buck in endorsing him for reelection as judge of the superior court, a position he has honored for thirty years.

Judge Buck has always had opposition in election but this year he is to have no opponent for the office. He is to have the endorsement of everyone. This is as it should be. His long and honorable career on the bench entitles him to this endorsement.

Resolutions were unanimously adopted by the association, stating that Judge George H. Buck be endorsed for the office of Superior Judge of San Mateo County, and the voters of said county, irrespective of politics or party affiliation are urged to support him and vote for him at the primary election to be held August 31, 1920.

The resolution was unanimously passed and adopted at a regular meeting of the San Mateo County Bar Association held on the third day of June, 1920.

The People Who Know it Best
Buy the Most

Our Preferred Stock is becoming a real financial institution in Maine.

It is owned by close to 3,000 Maine investors.

Old stockholders buy and buy again. Many Maine investors know but three forms of investment, Government Bonds, Savings Banks and Central Maine Preferred.

Often entire families invest a considerably proportion of their funds year after year in Central Maine Preferred.

These people who buy so regularly are people who know the company well. Many of them know the officers. They are familiar with the property.

These people receive dividend checks quarterly. Many have been receiving them for years.

If these conservative investors buy Central Maine Preferred, again and again, for years and years, perhaps it may be a good investment for you too.

The price is \$107.50 a share; the yield 6 1-2 per cent. net.

BIG NEW ENGLAND EVENT

One of the big New England events of 1920 will be the coming of the National Grange to Boston, which will probably be the largest assembly ever held by any fraternal organization within the boundaries of the New England states. The dates are November 10-19, with Mechanics' Hall the meeting place. Delegates and other members will come from more than 30 states and the 8000 subordinate Granges of the country will be represented by the gathering.

The outstanding feature will be the conferring of the seventh degree—the highest in the Grange—which takes place on Friday, November 12th, when a class of 10,000 people, made up principally of New England people. The approximate estimates of candidates from the six states is as follows: Maine 1000, New Hampshire 2000, Vermont 500, Massachusetts 5000, Connecticut 1000, Rhode Island 500.

The fact that nearly 6000 candidates received this degree when the National Grange met at Manchester, New Hampshire in 1913, makes the prediction of 10,000 candidates this year seem wholly probable; and if this hope is realized, it will easily be the largest class ever initiated on a single occasion by any fraternal organization in the United States.

In connection with the National Grange sessions, a big New England exhibit of agricultural products will be run in the lower hall of Mechanics' Building, when the products of New England soil will be very completely shown, each state having its own space for exhibit. In the line of household improvements a model kitchen, model living room and model rural school house will be shown, with all the comforts and conveniences possible to supply in each. This exhibit will be open to the entire public and wholly free, being run four days. Noteworthy speakers will address the National Grange sessions and every moment of the program will be crowded full of interesting things. The fact that the Grange is an active factor in the public affairs of the country gives added interest to the deliberations of its annual sessions.

The Boston event next November is of greater interest from the fact that practically all National Grange sessions are open to any fourth degree member of the Order, which will mean a great pilgrimage to Boston of New England Grange members at that time. There are nearly 1800 subordinate Granges in the six New England states, with a membership exceeding 175,000, so that the size of the Boston gathering can readily be appreciated. Already local groups are being made up in hundreds of subordinate Granges of members who plan to go together to Boston for the session and throughout all the rural portions of New England the Boston gathering is a coming event of the keenest personal interest.

PORTER

It has been alleged that Henry Betsy and three or four unknown men were the ones who stole Wm. Sargent's auto on the night of June 13. They drove the car as far as Portsmouth, N. H., when by their careless and reckless driving, they ran into a brick building, breaking a large plate glass window and wrecking the Ford. The men then made their escape. Henry Betsy's identification card carried at the time of the war, was found in the car, where it had been dropped.

Wm. Sargent's registration papers were found to identify the car. John A. Chapman and Mr. Sargent went to Portsmouth with the intention of towing the car home but they found the car in such a wrecked condition it was impossible to tow it.

Perley Day, Winfield MacDonald and young brother miraculously escaped with their lives on Sunday afternoon. W. MacDonald was driving his car toward Curtis Chapman's over a narrow place in the road. The car went out of the road bed about a foot, struck a rock, causing it to go down an embankment and turned the car completely upside down. Mr. Day threw the young boy out of the back window. The other two were under the car. We can't understand how they escaped receiving injuries of some kind. With the exception of a finger cut on MacDonald's hand, they were as sound as if nothing had happened. With the help of Curtis Chapman they righted the car and found that the windshield and top were completely demolished, but the running part of the car was as good as ever. At the time of the accident W. MacDonald was driving the car slowly in low gear, which probably accounts for the damage being as slight as it was. Winfield MacDonald had another accident with his car only a week before and escaped injury.

Prince-Thomas Downing-Thomas

The Congregational parsonage was the scene of a double wedding, Saturday afternoon, June 19, at 4 o'clock, the contracting parties being Annie Thomas and Maurice Prince and Dorothy Thomas and Arthur Downing. The ceremony was performed by Rev. M. O. Baltzer, who used the single ring service in both ceremonies. The brides were traveling suits of navy blue serge with hats in harmony. Immediately after the ceremony, Elton Brown took the bridal party by automobile to Lake Umbagog where they will camp during this week.

Mr. and Mrs. Prince will reside in Norway, making their home for a time with his sister, Mrs. Charles H. Pike. Mr. and Mrs. Downing will reside in Auburn, where Mr. Downing has employment.

The brides are the daughters of Mr. and Mrs. Edward M. Thomas of Norway. They attended Norway High school and for two years were operators at the local telephone exchange. A short time since they secured employment at the Carroll-Jellerson shoe factory. Both are prominent in the social life of the village and are musical, Annie, pianist and Dorothy, violinist, have assisted in many church and concert affairs.

Mr. Prince is the son of Maurice C. B. Prince of Mechanic Falls. During the last year he was in service six months at Camp Servis, Saxtonville, S. C. For the past eighteen months he has lived with his sister in Norway, being employed for a time at the shoe factory and at the present is at the Tubbs shoe factory.

Mr. Downing is the son of Mr. and Mrs. Solon Downing of Norway. He attended school in Oxford and Norway, and at the outbreak of the war enlisted with Co. D of Norway, and was with the company in the famous 26th division. He received a commission as Sergeant while overseas. After his return he was employed at the Norway Shoe Co., until about two months ago he went to Auburn where he is located.

High School Notes

Proficiency certificates were awarded recently at the high school to seven students for making the following records on the typewriter on ten-minute work: M. Velma Frank, '20, 44.6; Grace E. Gammon, '21, 40; Lona M. Rowe, '21, 49.3; Jennie Black, '21, 41.3; Nina G. Butters, '21, 40.4; Marion L. Downing, '21, 49.6; Marjorie W. Rich, '19, 49.5.

On May 24, Esther M. Hutchins won the sixty-word Credential Certificate on the Underwood typewriter by writing 696 words with only five errors in 10 1/2 minutes, thus making a speed of 63 words per minute. This is the certificate coveted by every pupil in the typewriting classes, as it entitles the holder to special consideration by the typewriter company in securing a position as typist. Miss Hutchins is the second pupil to qualify for this certificate since the Commercial Department was introduced into the high school. She also holds the honor of being the first to type 100 words in one minute. She also holds the honor of establishing a new speed record for Norway High School.

Station agent, Emil Beaulieu, is painting his buildings on Tucker street. He is doing the work in spare time and will produce a thorough job.

READER BRINGS "THE FORTUNE HUNTER" TO CHAUTAUQUA.

Louis Joseph Vance, the beloved writer of real American life, must have had Maude Willis in mind when he wrote his play, "The Fortune Hunter."

Miss Willis is a most human, sympathetic reader, the best on the Chautauqua platform today. She gives the entire play herself, playing every character, making each one a living, interesting realistic personality. "The Fortune Hunter" is such a quaint, lovable American comedy, admirably suited to Miss Willis' talents and is one of the biggest triumphs of her career on the Chautauqua platform.

Maine Woman Has Gained 29 Pounds

When She Began Taking Tanlac Was Almost A Nervous Wreck

In Perfect Health Now

"When I began taking Tanlac three months ago I was a nervous wreck and weighed only 104 pounds, but I now weigh 133 pounds and have never felt better in my life," was the remarkable statement made by Mrs. Bethel R. Leonard, 3 Wilmoor street, Portland, Me., while discussing the merits of the medicine a few evenings ago.

"Could sit here all night," she added, "and talk about the good Tanlac has done me and then not tell it all. Three years ago I commenced suffering from what was called a complication of troubles, but as no one seemed to understand my case or know what to do for me, I kept going down hill. I spent some time in a hospital, was under special treatment for two years and did everything possible, but I kept getting worse. My nerves troubled me more than anything else, and it was almost impossible for me to get any sleep at all, for I would just roll and toss from one side of the bed to the other all night long and if I did happen to drop off to sleep I would wake up with a start almost frightened to death. Why, even the ringing of the front door bell so completely upset me I had to have it taken off and there were days when the talking and noise around the house would almost drive me distracted. My appetite was extremely poor, and I did not eat enough, it would seem, for a baby—a slice of toast and cup of tea being a hearty meal for me at any time. It had been five years since I have been able to do my housework, for it was all I could do to even walk across the floor or stand on my feet. I had terrible pains all over my body all the time and sometimes these pains were so bad it seemed like every bone in my body was splitting in two, and my head would ache so I thought lots of times it would burst open.

"I decided to try Tanlac after seeing where it was benefiting so many other people, and to my joy I began to improve on the very first bottle. I have taken six bottles in all and the benefits I have received are more than remarkable. My nerves are in such perfect condition I can hardly believe I am the same person. Why, just the other night I chaperoned two hundred school children and the noise made by them never disturbed me in the least. I have had the front door bell put back and you could ring it off without its upsetting me, and sleep? Why I can sleep the whole night through without ever waking up and some one has to call me every morning. The pains have all gone out of my body, I don't know what it is to have a headache and my appetite is so good I eat enough for two people and still I am hungry all the time. Tanlac has proven a wonderful blessing to me.

Tanlac is sold in Norway by A. L. Clark Drug Co., in West Paris by S. T. White, and by O. H. Haskell, Sweden, R. F. D. from Harrison.

NORWAY GRANGE MEETING

At the last regular meeting of Norway Grange, Memorial services were held in memory of the deceased members who had passed away during the past year and a half. The resolution committee, with Mrs. Louise Gammon, chairman, in charge. The hall was beautifully decorated with evergreen and flowers. The program follows:

Singing—23rd Psalm: Mrs. Louise Gammon
Prayer—Rev. F. A. Sullivan
Address—Rev. F. A. Sullivan
Original Poem, written by Mrs. Bessie Delano
Poem written by Mrs. Annie Goodwin
Music from Mrs. F. A. Sullivan
Captain Minnie Herrick presented the contest program following the Memorial exercises, with program including the Grange Journal by Mrs. Kate Delano, which was filled with many local hits and pat sayings that brought down the house. Reading—Mrs. Minnie Herrick
Quotations—Mrs. Emma Towne
Singing—"America" Members

Several visitors were present from out of town, and Mrs. Hodgdon who has not been able to attend for many months, passed a happy afternoon in seeing many old time friends.

The last contest program will be presented Saturday afternoon in charge of Captain Harriet Brown and Novel Brown. The following paper was written and read by Mrs. Jessie A. Cox:

"It surely is most fitting that on this beautiful June day we keep our Memorial, for Memorial means to preserve the memory of a person, or keep them in our remembrance. In the last year and a half Norway Grange has lost fifteen of its most worthy members. Two of our best young men today are sleeping in a foreign land—Ralph Millett and Carroll Herrick, went over there as soldier boys, never to come back to us; Daniel Watson, Jonathan Millett, Walter Buck, Troybridge Crocker and Frank Packard. All these men were in the prime of life. Good agriculturists and good patrons, and men whom we could ill afford to spare from our Grange and community. Yet their life work is over and surely their good examples and good works will follow them in the years to come."

Charles Pike and Marion Millett were among our youngest members. Brother Pike, a bright business man with many Millett, a dear school girl, loved by her classmates, and idolized in her home. These two, it seems to me, have left their grange work for us to finish.

Benjamin Tucker, was our oldest brother at the time of his death, having reached nearly four score years and ten. All his life he had been devoted to agriculture, and stock raising. He was ever a constant attendant of the Grange, and the results of his long years of experience and experiments were a vast storehouse of knowledge for us for he was ever ready to impart his knowledge to us, in a most kindly way.

Sister Ida Kimball, that sweet voiced singer. It seems to me she last song I heard her sing in this hall was a parting benediction, for she sang that beautiful song, "The End of a Perfect Day."

Eliza Hutchinson and Emma Holt were two of our oldest sisters. Sister Emma Holt was the oldest member at her death. Two names among the list, Chas. Ryerson and John A. Roberts. In these two men, Norway Grange is indebted much, for what it is today. In the early seventies, the Grange was looked on as an amusement club for the farmers, with a few crazy notions thrown in, yet it was such men as Ryerson, with his clear, cool heads, who have made, not only our grange, but the grange at large, what it is today. No one can know the hard work and forethought he had, to get a handful of men and women together, and organize a grange, first meeting in a schoolhouse, then in a dwelling house, till finally through his efforts we had the first beautiful hall across the way. Seven years he was the beloved master of Norway Grange. After he retired from the master's chair his interest would not abate, for as long as his health would permit, he was a constant attendant at our meetings. He said to me once, I can hear but little but I do so enjoy coming and watching the faces of the different ones. And then my wife, and Lizzie, tell me all about the meeting and talks when we get home. Fortunately was Norway Grange to have such a pioneer leader.

Well do I remember more than thirty-five years ago when Brother John A. Roberts took his final degree; and became our brother. From the time of his joining, he was a constant attendant at our meetings, but with his splendid education and vast capabilities, he did not long remain in obscurity. Soon he became our lecturer, then overseer, twice master, then secretary, till his labors called him elsewhere. All these offices he most ably filled. It was while he filled the master's chair the last time, Norway Grange one class ever taken in at one time in our State, between eighty and ninety in our initiated at one time in the Opera House. Several times has that honor been claimed by other Granges, but so far the honor belongs to Norway Grange. It was during the lapse of his filling the master's chair, he was chosen chairman of a committee to build a larger Grange Hall. No one knows better than myself the discouragements, and I might almost say defeat, that committee met with. Yet, with his general leadership and courteous manner and accomplished and today we have a large and beautiful hall. Long will it remain a silent but a substantial monument to his memory.

This is OUR IDEA

A certain city store prints a statement something like this—Beware of the downward prices. It is a known fact that many stores on account of the cold late season are overstocked with Spring Suits and Top-coats, we all know that the longer they keep them, the more out of style they will be, in other words, this Spring's Suit will be "ANTIQUE" next spring.

Now speaking for ourselves we can say that about all of our Kuppenheimer Suits as well as other makes are YEAB 'ROUND models; a suit that you buy here will be an all round suit—in style this year, next year, and the year after. No reduction in price, no reduction in style, no reduction in quality, or no reduction in value. Our motto is one price to all and money back if not satisfied.

ECHOES FROM THE WEST OF OXFORD COUNTY PEOPLE

Hurley, S. D., June, 1920.

Dear Advertiser: While in Long Beach, Cal., I enjoyed a pleasant visit at the home of Mrs. C. A. Purington, nee Elizabeth Heald, daughter of Rev. and Mrs. Josiah Heald, D. D. of Albuquerque, N. M. Mr. Purington has a responsible position, with a big shipbuilding firm at Long Beach. They have one child, a son four years old.

A prominent citizen of Glendale that I wish to mention is Daniel Webster, who was born on the old Deacon Shirley place in East Fryeburg (better known in history as Fay End street) over 80 years ago. He and his good wife, nee Smith, and her sister, have a beautiful home, only three city blocks from my sister's home. He has two fine city lots, one a corner lot, a fine large house, and orange, lemon, fig, and other kinds of fruit trees, also lots of small fruit for his own use, or to sell or give away, also a fine well kept garden. He is also independent of the milk trust for he keeps a milk goat that gives two quarts of milk a day and requires but little food to keep her. My sister thinks there is no place like California to live in for there are no blizzards, few tornadoes, and no zero weather outside of the mountains. And she enjoys the warm sunshine of the winter months and the long, bright, cloudless summer days. Her family, Mr. and Mrs. Ellsworth and Fannie Gile, and two daughters, Beatrice and Mabel, are well and all busy at their various tasks. For the past year or two Mr. Gile has had all his finding and carpenter work he could do at five to six dollars for an eight hour day and near home where he could board at home.

On April 8th, I went to Los Angeles and took the train for South Dakota and home. I stopped for a two day visit with friends at Bakersfield and Rosedale, California, then went on to Berkeley, where I visited for four days with friends at Berkeley, Oakland and San Jose. At Oakland I enjoyed a pleasant visit with Mrs. Viety Barker Evans, one of my schoolmates, at Lovell Center, sixty years ago. Her husband is a retired harness maker. While living in Kansas years ago they lost two of their children with that dread children's disease, diphtheria. Their only son is now engaged in business for himself in Oakland.

On the same trip and day, I called at the home of E. P. Heald, another of my old Lovell schoolmates, and also a cousin of mine, and visited for an hour. Until about six years ago Mr. Heald was one of the educational leaders of San Francisco. More than fifty years ago he established Heald's Business College in San Francisco and was its president and active leader until stricken with paralysis some six years ago. Since then he has been a helpless paralytic. His mind seemed clear and he could talk plainly without much difficulty. I judge that he is having the best of care. He has a fine home in Oakland, and his wife told me that, excepting one year when they had a trained nurse to care for him, she and her two sisters who make their home with her, had taken the entire care of their helpless invalid all these years.

Of my old time friend and boyhood playmate, Joseph Charles Swan, raised on the banks of the Saco and Swan's Falls, Fryeburg, Me., of whom I wrote the Advertiser nine years ago after visiting him and his family in the little mining town of Happy Camp in northern California, 75 miles from the nearest railroad town, and over a mountain road almost impassable, except on horseback, for six or eight months of the year, I have a very sad story to tell. Late last fall his wife, Mrs. Naomi H. Swan, wrote me that last July Charlie had a paralytic shock and was entirely helpless. In March, this Spring, she wrote me again that in addition to the paralysis, Charlie had a cancer on the face, and now word has just come through Glendale friends that the doctor says he cannot live more than six weeks and it was thought that he would go blind as the pus from the cancer runs into his eyes. It is indeed a sad case. Their son, Herbert, the bread winner, is at work several miles from home and cannot be at home. The daughter, who is married and living in a miner's camp, has her hands full and Mrs. Swan is taking care of her paralyzed husband, dresses his cancer, attends to her household duties and looks after the garden and poultry. She has more than a double task to do and now in addition to all this, word comes that Irene, in the miner's camp, came near losing her life by being tangled up in a wire rope used in the mine. She escaped with a broken leg. She would like to be taken home and have a mother's care, but her mother's house is small and her father is on his dying bed and the mother has her hands doubly tied and the daughter must stay in her miner's cabin with no nurse but her husband and the doctor, probably seventy-five miles away.

At 10 p. m. April 16, I boarded the South Pacific train at Oakland Pier and started on a 40 hour trip to Tacoma, Wash., where I arrived at 1:30 p. m., April 18th. I visited for two days with Sewell Stearns, a cousin, and another of my Lovell Center old schoolmates. He is a brother of Ella Stearns of Lovell, who for more than 40 years has been a school teacher in Audubon County, Iowa, and for at least eight or ten years last passed has been the efficient County superintendent of schools in Audubon County, Iowa. Mr. Stearns had just sold out a prosperous grocery and meat business. He has two children, a son and a daughter. The daughter is married and lives near home. The son recently lost his wife with a little child, makes his home with his parents. Virgil took his father and me to a long auto ride out into the country to the army post, whose army barracks and horse barns and immense storage buildings had been erected for a large army post. It was a regular city, with paved streets, cement sidewalks and crossings, and covered ways leading from one section to another. It gave me some idea of the preparation needed in caring for an army of four million soldiers.

My next stop was at the large and fast growing city of Seattle where I visited for three days at the home of Mr. and Mrs. Farris Haley, cousins of mine, with whom I was visited many years ago. Mr. Haley was born at Stony Me., where I first met him as a boy fifty years ago. I next met him about 1888 when he was working on his father's farm in West Fryeburg, Me. Mr. Haley's business is plying from one to a dozen men to work for him, according to the size of the contracts that he makes with the city bosses. Of his family I can best explain by way of a letter that I received from Mrs. Haley, which reads in part as follows: "Through the Advertiser, which my aunt still sends us, we have known pretty well where you were from time to time. We have had some changes, and

we have both grown older than real lapse of years would account for in the experience of having our youngest son away both in the Mexican Border campaign and in France. But we are happier than some, in that we have him safely back. Both the boys are married and have homes of their own in Seattle. Bob, has been building and is just about moving into his house, after being with us some months. He has been in Oregon two years, but is now with a foreign trade firm in Seattle. Lucia has had two different library positions in Oregon since the boys were changed by the building of the library of the University of Montana. Louise is the only one we have left at home. She is in college. We shall enjoy a visit from you very much. You will find Seattle built up a great deal since you were here. Our own neighborhood has changed by the building of many small houses. I guess our trees have grown some, but otherwise you will have no trouble in identifying 1609. Let us know when you will be here. Paris has not seen anyone from his old home town to talk town gossip with since Anna Barrows was here in a lecture tour a few years ago. He did enjoy seeing her. He likes to read the Advertiser and talk of the people, but of course I know them only by hearsay with few exceptions. He will have a grand time going over things with you. Yours truly, Mary M. Haley."

My next stop was at Spokane, Wash., where I made a four day stop and took a branch line of the N. P. railroad 100 miles to Pullman, the seat of the Agricultural College of Washington, where I enjoyed a three day visit with Dr. Fred Heald one of the University professors, and a son of the late Henry Heald of Madison, Wisconsin, one of my old time Lovell Center schoolmates. Dr. Heald has a fine home in the outskirts of the city, with five acres of valuable farmland for pasture, field and garden. He has a sensible and capable wife, and three bright children. Mrs. Heald has solved the laundry and hired girl problem by having her own washing and housework. Her washing machine, wringer and flat irons are all in the basement and connected up with the electric wiring of the house, and all that she has to do is to press a button to set any one of them in motion.

A deep ravine runs through the town and along the high ridge. On one side are the large University buildings and camps, which make a fine showing. At the upper end is the University farm with its many substantial horse, cattle, sheep, hog and poultry barns which I visited and saw some very fine stock in the various barns and pastures.

On Sunday with Mr. Heald and his family, I went taken on a 50 mile auto trip to what is called the Snake River Bluffs. A high plateau ends abruptly at the Bluffs, while a thousand feet or more below a wide valley through which the Snake River flows, while far away to the right is plainly to be seen those twin sister cities, Lewiston, Idaho and Clarkston, Wash., separated only by the Snake River, and named after those two heroic explorers, Lewis and Clark, who more than one hundred years ago ascended the Mo. River from St. Louis to its source in the Rocky Mountains, then crossing a portage of only thirty-five miles to the head waters of the Columbia River, they descended that river to its mouth on the Pacific Coast. What a wonderful trip! A trip made mostly by raft, canoe and the Flat and Walker line and lasting without a glimpse of civilization two full years and three months.

From Pullman I went back to Spokane where I visited for a day and a night with an old South Dakota friend who lives at Ellensburg, where he has a fine apple and cherry orchard.

On Thursday morning, April 29, I again took the train, homeward bound, and traveled all that day and night and until noon the next day when I arrived at Glendive, Montana, where I visited for three days with Cris. Rasmussen and his family. Mrs. Rasmussen and her sister, Esther, are daughters of Isaac S. Anderson, formerly of Lovell Center, Maine, but for many years a resident of Atlantic, Iowa. Mr. Rasmussen and wife are in the real estate business in Glendive and he has been elected and served two terms in the Montana State Legislature. Es-Andrews has been a teacher in the city schools for several years. She now has a position as typewriter for the Division Superintendent of the N. P. railroad whose headquarters are in Glendive. Montana is a wonderful state, but it is in the dry belt. Last year and the year before were dry years and the crops were almost a failure. Last winter there was the heaviest ever known and thousands of herds of stock perished for want of food and shelter. This year they are having plenty of rain, and the crop prospects are good.

On Monday noon, May 3rd, I again took the train, this time for home. Went to St. Paul, thence on the northwestern to Hurley, where I arrived on Wednesday noon, May 5th. When at Long Beach, Cal., I was exposed to the whopping cough which developed just before I started, with the result that I came whirling all the way home. It has had its run and I feel better now.

Crop prospects here are very good. We raise no wheat, and most of the farmers had to mud in their oat crop, which is raised on last year's corn ground and put in with disk pulverizers without plowing. And lucky was the man who had most of his corn ground plowed last fall. Last winter was an open winter with lots of heavy storms. Spring came late and was cold and backward and about twice a week a heavy rain storm swept across the country making it almost impossible to get into the fields to do any work. Most of the farmers here had most of their corn ground plowed last fall and most of the corn was planted by the last of May.

We have just been having two weeks of extra corn growing weather and the corn and oats have been getting there with both feet. On my farm the men have in some over 100 acres of corn and 75 acres of oats. They are cultivating the corn the second time now and some of the first planting stands are high.

I see no prospect for cheaper corn, corn or oats for at least another year. With a part of Europe to feed and a much larger part here at home, there is not much chance for a falling market. Old potatoes here are 10 cents a lb., corn about \$1.70 and oats around 90 cents a bushel with the farmer boys flocking to the city for high wages and short hours and with the farmers paying from \$80.00 to \$90.00 per month and board and lodging and washing for their hired help, the only thing that will save the farmer from financial ruin will be the continued high price of grain and meat until labor and other commodities also drop in price.

The Average Business Man is shaking in the knees half the time.

MEN'S CLOTHING STORES

BIG PRICE CONCESSIONS IN OUR MEN'S AND BOY'S Suits and Overcoats

Why these reductions you ask? HONESTLY WE WANT TO KNOW. As far as we can ascertain there is only a slight if any concession in clothing prices by either mill or manufacturer. All clothing contracted for next Winter will have to sell as high or higher than this Spring prices. Is it a wise business policy to cut prices under those conditions? We say not. Are we overstocked? No. Have we marked up and then marked down? Decidedly no. Are we doing it from patriotic motives? Don't this make you laugh? Are we doing it to lower the High Cost of Living? Laugh again, No.

TO BE HONEST, WE ARE DOING IT BECAUSE OUR COMPETITORS HAVE TEMPORARILY LOST THEIR BUSINESS CONFIDENCE AND CUT PRICES. IT WOULD BE BUSINESS SUICIDE FOR US NOT TO FOLLOW. BUT WHY JUST A LITTLE MARK DOWN. WHY RESERVE SOME CLOTHES OR STYLES—WHY LEAVE OUT OVERCOATS? WHY NOT TAKE THE BOYS INTO THE GAME? IF CLOTHING PRICES HAVE FALLEN, WE WILL TAKE A GOOD PUNISHMENT AND INCLUDE THEM ALL.
